The **voice** of the **lighting industry** in Europe

Our Members

Our vision: Strategic Roadmap 2025

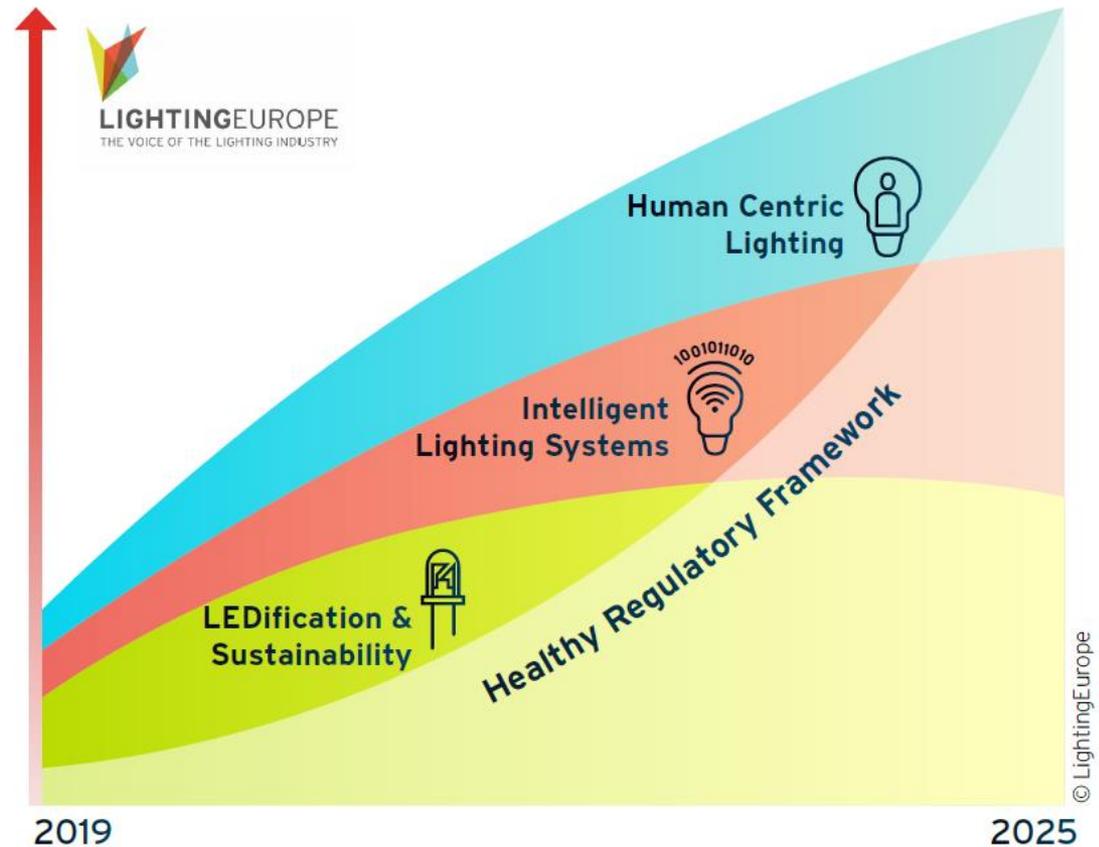

LightingEurope has made progress in achieving the lighting industry's Strategic Roadmap to grow the **Value of Lighting** by 2025.

The lighting industry is harnessing the potential of **LEDification** and **Sustainability** and is delivering energy efficient and sustainable lighting products.

The increased **Value of Lighting** to society will come from **Intelligent Lighting Systems** and **Human Centric Lighting**.

The European lighting industry is working with European legislators to ensure a **Healthy Regulatory Framework**, with simple, sound rules that are better enforced, to foster growth in the market and for people.

VALUE OF LIGHTING

Our priorities

LightingEurope's priorities:
SOUND & SIMPLE RULES that are easy to understand, apply and enforce, and that help create a positive business environment in Europe

LightingEurope's priorities:
DELIVER THE VALUE OF LIGHTING through intelligent lighting systems and human centric lighting

LightingEurope's priorities:
IMPLEMENT CIRCULAR ECONOMY THINKING by supporting industry and shaping rules that reflect the Value of Lighting

LightingEurope's priorities:
BETTER ENFORCEMENT to ensure safe, quality products for users and a level playing field for industry

Our policy focus

Value of Light

Growing the market by stimulating intelligent lighting systems and human centric lighting

Renovation Wave Initiative

Digital Single Market
E-commerce
ProSafe

Compliance programme
Enforcement

Sustainability

Minimising the ecological footprint by supporting the industry and shaping rules that reflect the particularities of lighting

REACH
Product lifetime
RoHS
WEEE
Repair and reuse
Green Public Procurement
Renovation & retrofitting
Durability
Waste generation & management
Horizon 2020
Serviceability
Reparability
Material Efficiency Standards

Special applications

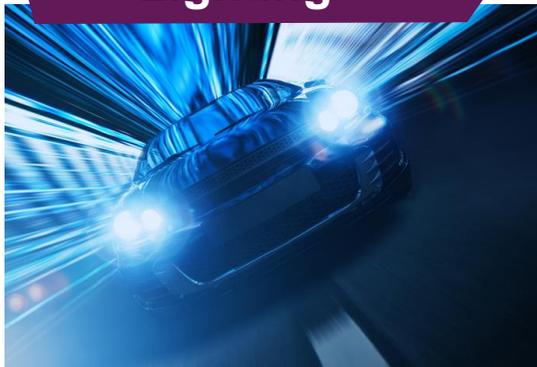

LightingEurope addresses both horizontal topics impacting all products/business segments as well as vertical applications.

Our current vertical activities include:

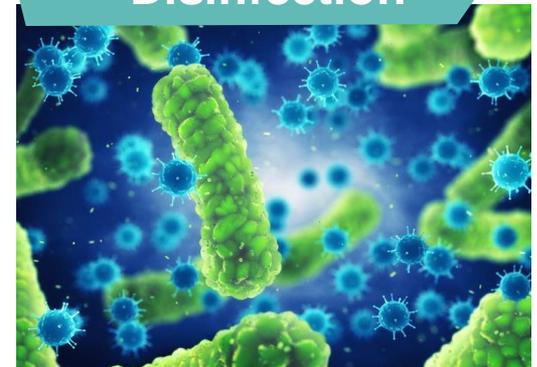

Emergency Lighting

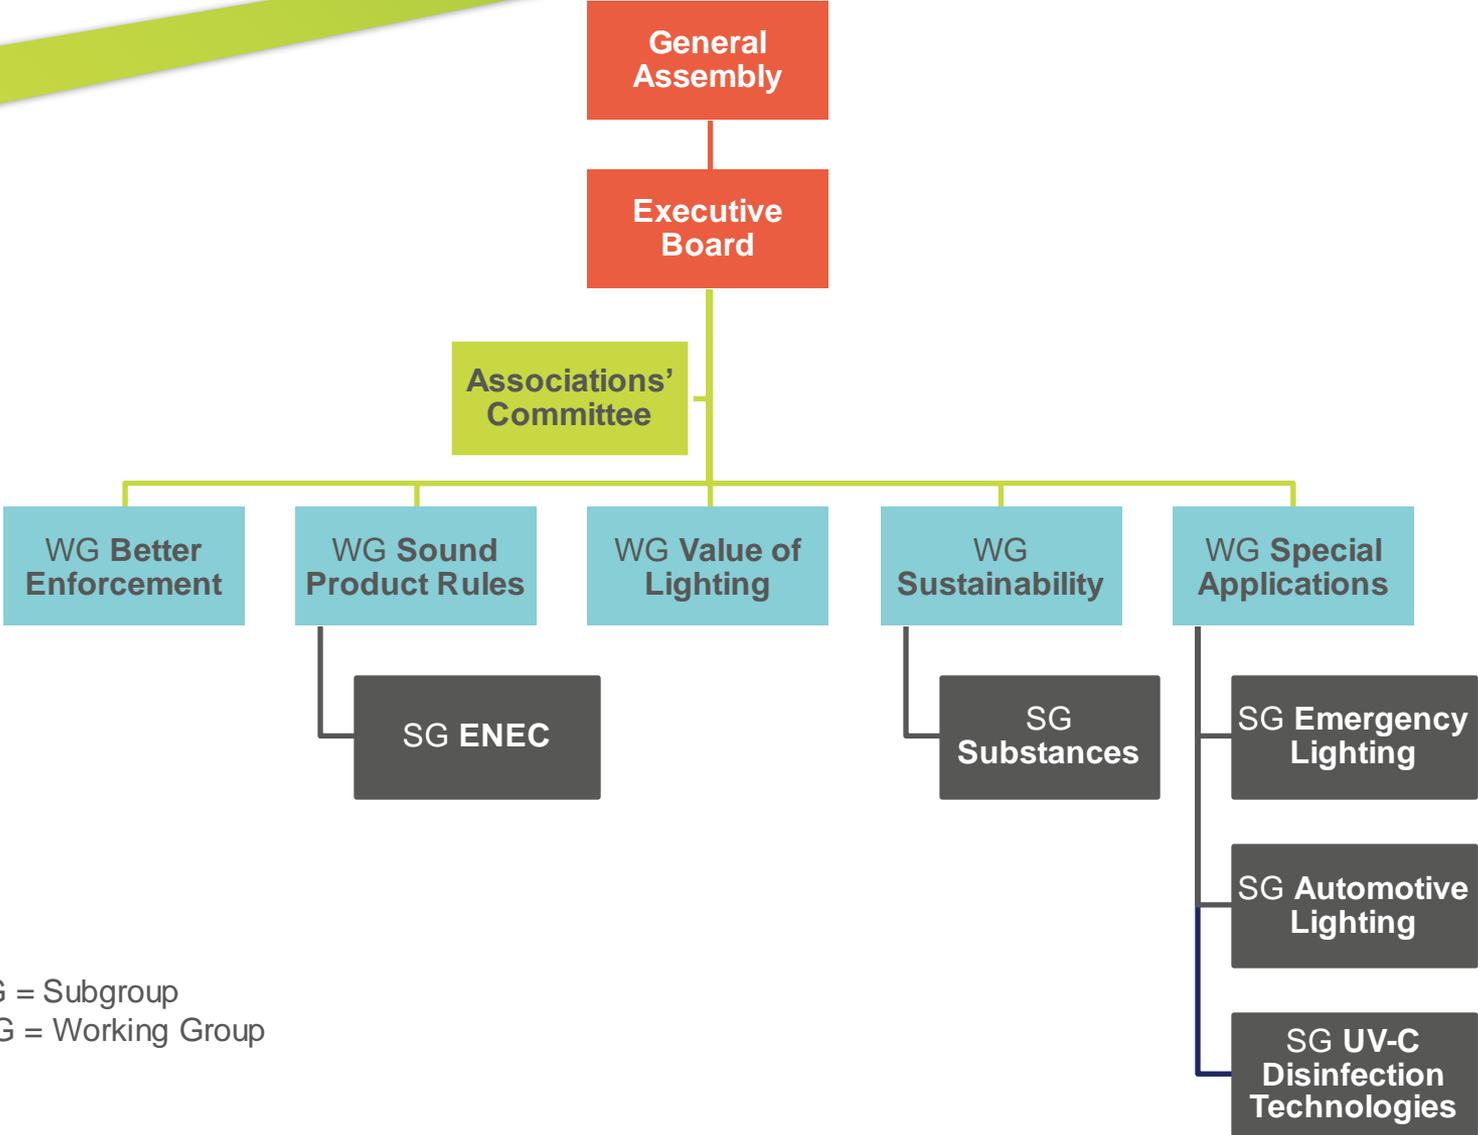

Automotive Lighting

UV-C Disinfection

Our structure

SG = Subgroup
WG = Working Group

- ✓ Only **voice of the lighting industry** in Brussels
- ✓ **Dedicated** to lighting – sector specific
- ✓ Direct access to decision makers – the lighting industry's **Brussels office**
- ✓ **Strategic vision** providing direction for the lighting industry
- ✓ **Influence** EU legislation and policies on lighting
- ✓ **Early warning** on upcoming policies and laws impacting lighting and your business
- ✓ **Guidance documents** and **access to experts:** understand how EU rules impact you and what you need to do to comply
- ✓ Compliant forum for industry to **exchange views** and reach consensus

Membership benefits and services

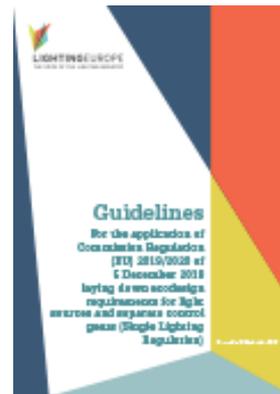

- ✓ Join our Working Groups and Task Forces
- ✓ Regular **updates on latest policy developments & trends** and how they impact the industry
- ✓ Shape LightingEurope **positions and advocacy strategies**
- ✓ Free access to LightingEurope **guidelines – how to interpret and apply EU rules**
- ✓ Complimentary invitations to LightingEurope **events**
- ✓ Monthly **Newsletter**
- ✓ **Voting rights** in the General Assembly
- ✓ Right to stand for election to the **Executive Board**

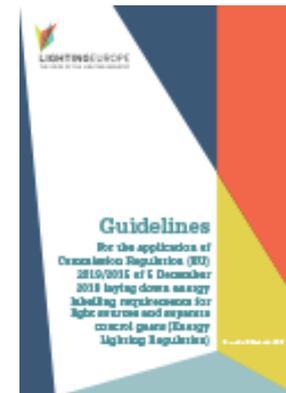

Free access to our Guidelines

- Free for companies that are members of our lighting associations
- Sharing our experience of discussing and shaping new ecodesign & energy labelling requirements since 2015
- All rules apply as of 1 September 2021

[More details on our website](#)

**Ecodesign
Regulation**

**Energy Labelling
Regulation**

**EPREL
Database**

Overview of all Guidelines

- EPREL – EU database for energy labelling (March 2019) – Version 2 July 2021
- Ecodesign rules for light sources and separate control gears (Version 4 - June 2021)
- Energy Labelling rules for light sources (Version 4 - June 2021)
- Assessment of luminaires under the Radio Equipment Directive (April 2020)
- Evaluating the performance of LED-based luminaires (LED lifetime metrics) (January 2018)

Brussels Direct webinars

- your finger on the pulse of Europe

- Short updates on all topics impacting lighting: product design, substances, COVID-19 preparedness, sustainable financing criteria, Brexit, cybersecurity, product compliance online ...
- Speakers: European Commission officials, Member of European Parliament, consultants, other associations...
- 2-3 webinars per month
- Overview of upcoming & past events [available online](#)

Business Climate Index

– benchmarking national lighting markets

- 2 surveys per year
- 10 associations - 9 countries
- Collect macro market data (% market trends) on lighting sector from across Europe
- Indicate trends per country/member association per 6-months' period
- Offers associations and their member companies an overview of trends across different European markets

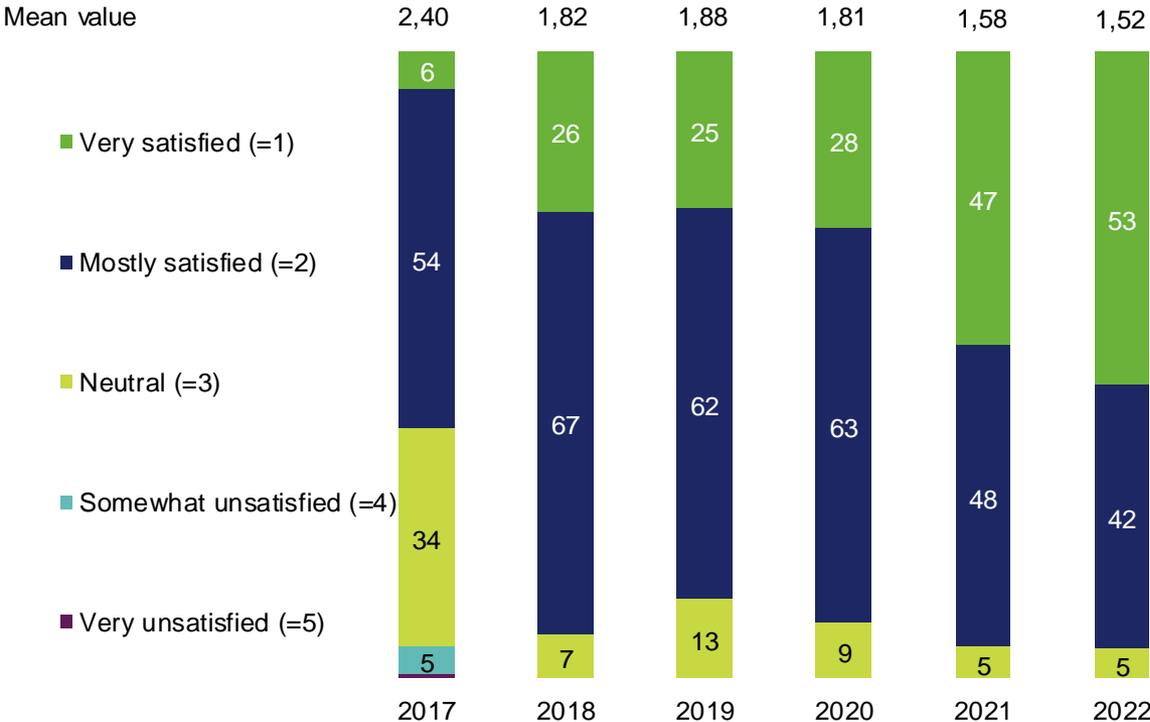

Detailed BCI is shared with all participating associations – summary is shared with all LE members and publicly

What our members say

What is your overall level of satisfaction with LightingEurope?

Year-on-year increase in members' satisfaction

Base: All respondents, n(Total)=55, data in % and mean value
