The **voice** of the **lighting industry** in Europe
LightingEurope has made progress in achieving the lighting industry’s Strategic Roadmap to grow the **Value of Lighting** by 2025.

The lighting industry is harnessing the potential of **LEDification** and **Sustainability** and is delivering energy efficient and sustainable lighting products.

The increased **Value of Lighting** to society will come from **Intelligent Lighting Systems** and **Human Centric Lighting**.

The European lighting industry is working with European legislators to ensure a **Healthy Regulatory Framework**, with simple, sound rules that are better enforced, to foster growth in the market and for people.
Our priorities

LightingEurope’s priorities: 
SOUND & SIMPLE RULES that are easy to understand, apply and enforce, and that help create a positive business environment in Europe

LightingEurope’s priorities: 
IMPLEMENT CIRCULAR ECONOMY THINKING by supporting industry and shaping rules that reflect the Value of Lighting

LightingEurope’s priorities: 
DELIVER THE VALUE OF LIGHTING through intelligent lighting systems and human centric lighting

LightingEurope’s priorities: 
BEFTER ENFORCEMENT to ensure safe, quality products for users and a level playing field for industry
### EU policies impacting lighting

#### Sustainability & Circular Economy
- Regulation on Ecodesign for Sustainable Products
- Product Environmental Footprint and Life Cycle Assessment
- RoHS review and exemptions for cadmium, lead and mercury
- Revision of the Packaging and Packaging Waste Directive
- Revision of the EU Waste legislative framework (WEEE & WFD)
- Carbon Border Adjustment Mechanism
- Corporate Sustainability Reporting and Due Diligence
- Harmonised system to track and manage information on substances
- Legislative proposal to empower consumers
- Sustainable finance/ EU Green Taxonomy
- Revision of the EU Mercury Regulation
- Right to Repair

#### Better Enforcement
- Digital Services Act
- Revision of the Product Liability Directive
- EEPliant 3 - ecodesign & energy labeling
- Revision of the General Product Safety Directive
- Better Regulation Communication
- EU Market Surveillance Regulation
EU policies impacting lighting (2/2)

**SOUND PRODUCT RULES**
- Review of the Ecodesign and Energy Labelling rules for lighting products
- LED Lifetime Metrics
- LED Custom Codes
- Electromagnetic Compatibility Directive
- Review of the Construction Products Regulation
- Radio Equipment Directive
- Review of the New Legislative Framework
- Digital Product Passport
- Review of the EU Blue Guide
- Low Voltage Directive
- Brexit impact & guidelines

**VALUE OF LIGHTING**
- EU Renovation Wave Initiative
- Smart Readiness Indicator delegated and implementing acts
- Revision of the Energy Efficiency Directive
- Green Public Procurement
- EU Digital Strategy, incl. cybersecurity
- Preparatory study on Building Automation and Control Systems
- European Framework for Sustainable Buildings
- Revision of the Workplace Directive
EU Sustainability Initiatives relevant for the lighting sector

- ESPR + Ecodesign WP
- Empowering Consumers (consumer rights & unfair comm practices)
- Construction Products Reg
- Right to Repair
- Substantiating Green Claims
- EU Green Taxonomy and GPP
- Corporate Gov. Sustainability Reporting and CBAM
- WFD/WEEM RoHS/REACH Mercury

Ecodesign for Sustainable Products
Regulation (ESPR) for lighting

- Energy Efficiency
- Quality
- Removable / Replaceable LS

- Durability
  - Remanufacturing & Reuse
  - Sustainability
    - Recyclability and Recycled content
    - Repairability and Repair Score
    - DPP & Performance label
  - Critical Raw Materials & tracking Substances
LightingEurope addresses both horizontal topics impacting all products/business segments as well as vertical applications:
Structure

General Assembly

Executive Board

Associations' Committee

WG Better Enforcement
  - SG ENEC

WG Sound Product Rules

WG Value of Lighting

WG Sustainability
  - SG Substances

WG Applications & Standards
  - SG Emergency Lighting
  - SG Automotive Lighting
  - SG UV-C
  - SG Standardisation
Value for our members

✓ Only **voice of the lighting industry** in Brussels
✓ **Dedicated** to lighting – sector specific
✓ Direct access to decision makers – the lighting industry’s **Brussels office**
✓ **Strategic vision** providing direction for the lighting industry
✓ **Influence** EU legislation and policies on lighting
✓ **Early warning** on upcoming policies and laws impacting lighting and your business
✓ **Guidance documents** and **access to experts**: understand how EU rules impact you and what you need to do to comply
✓ Compliant forum for industry to **exchange views** and reach consensus
Join our **Working Groups** and **Task Forces**

Regular **updates on latest policy developments & trends** and how they impact the industry

Shape LightingEurope **positions and advocacy strategies**

Free access to LightingEurope **guidelines – how to interpret and apply EU rules**

Complimentary invitations to LightingEurope **events**

Monthly **Newsletter**

Invitations to **Brussels Direct Webinars**

**Voting rights** in the General Assembly

Right to stand for election to the **Executive Board**
Free access to our Guidelines

- Free for companies that are members of our lighting associations
- Sharing our experience of discussing and shaping new ecodesign & energy labelling requirements since 2015
- All rules apply as of 1 September 2021

More details on our website
Overview of all Guidelines

- Assessment of luminaires under the Radio Equipment Directive (v 2 – June 2022)
- EPREL – EU database for energy labelling (March 2019) – Version 2 July 2021
- Ecodesign rules for light sources and separate control gears (Version 4 - June 2021)
- Energy Labelling rules for light sources (Version 4 - June 2021)
- Evaluating the performance of LED-based luminaires (LED lifetime metrics) (January 2018)
Brussels Direct webinars - your finger on the pulse of Europe

• Short updates on all topics impacting lighting: product design, substances, sustainability assessment methods, Brexit, cybersecurity, product compliance online …

• Speakers: European Commission officials, Members of European Parliament, consultants, other associations…

• 2-3 webinars per month

• Overview of upcoming & past events available online
2022 Advocacy in Numbers

216 calls and meetings with the European Commission, European Parliament, Member States and other stakeholder organisations

57 European associations are our regular partners for events, joint positions & exchanging views

24 Brussels Direct Webinars with 35 speakers and over 900 attendees
Live demonstration by European Commission on EPREL verification process: 516 attendees, recording viewed over 1600 times (as at end 2022)

Check out our 2022 Annual Report for more information on our activities & achievements
