Who we are

- **33 Members**
- **1,000+ Companies**
- **100,000+ People employed**
- **€21B Annual turnover**

The **voice** of the **lighting industry** in Europe
Our members
LightingEurope has made progress in achieving the lighting industry’s Strategic Roadmap to grow the **Value of Lighting** by 2025.

The lighting industry is harnessing the potential of **LEDification** and **Sustainability** and is delivering energy efficient and sustainable lighting products.

The increased **Value of Lighting** to society will come from **Intelligent Lighting Systems** and **Human Centric Lighting**.

The European lighting industry is working with European legislators to ensure a **Healthy Regulatory Framework**, with simple, sound rules that are better enforced, to foster growth in the market and for people.
Our priorities

LightingEurope's priorities:
SOUND & SIMPLE RULES that are easy to understand, apply and enforce, and that help create a positive business environment in Europe

LightingEurope’s priorities:
IMPLEMENT CIRCULAR ECONOMY THINKING by supporting industry and shaping rules that reflect the Value of Lighting

LightingEurope’s priorities:
DELIVER THE VALUE OF LIGHTING through intelligent lighting systems and human centric lighting

LightingEurope’s priorities:
BETTER ENFORCEMENT to ensure safe, quality products for users and a level playing field for industry
Our focus areas

**Value of Light**
Growing the market by stimulating intelligent lighting systems and human centric lighting

- Building Automation and Control Systems
- IoT
- Smart Readiness Indicator
- Smart cities
- Quality of life (health, wellbeing, performance)
- Healthy buildings
- Interconnectivity
- Building Management Systems
- System efficiency
- Digital Single Market
- Smart buildings
- Occupational Health and Safety
- Cybersecurity & data privacy
- Renovation & retrofitting
- EPBD

**Better Enforcement**
Ensuring safe quality products for users and a level playing field for European industry

- Market Surveillance
- Internal Market
- EEPLIANT3
- E-commerce
- Compliance programme
- Enforcement
- ProSafe

**Sound Product Rules**
Shaping simple rules that are easy to understand, apply, and enforce, and a positive business environment in Europe

- Green Public Procurement
- Custom Codes
- Energy Labelling
- Standby power
- Low Voltage Directive
- Trade
- Lifetime Metrics
- Energy Efficiency
- EMC
- ENEC
- Eco-design

**Sustainability**
Minimising the ecological footprint by supporting the industry and shaping rules that reflect the particularities of lighting

- RoHS
- WEEE
- REACH
- Product lifetime
- Repair and reuse
- Durability
- Green Public Procurement
- Renovation & retrofitting
- Waste generation & management
- Horizon 2020
- Serviceability
- Material Efficiency Standards
- Reparability
LightingEurope address both horizontal topics impacting all products/business segments as well as vertical applications.

Our current activities include:

**Emergency Lighting**

**Automotive Lighting**
Our organisation

- General Assembly
  - Executive Board
    - Associations' Committee
      - WG Better Enforcement
        - SG ENEC
      - WG Sound Product Rules
      - WG Value of Lighting
      - WG Sustainability
        - SG Substances
        - SG Emergency Lighting
        - SG Automotive Lighting
      - WG Special Applications

SG=Subgroup
WG=Working Group
Value for members

✓ Only **voice of the lighting industry** in Brussels
✓ **Dedicated** to lighting – sector specific
✓ Direct access to decision makers - the lighting industry’s **Brussels office**
✓ **Strategic vision** providing direction for the lighting industry
✓ **Influence** EU legislation and policies on lighting
✓ **Early warning** on upcoming policies and laws impacting lighting and your business
✓ **Guideline documents** and **access to experts**: understand how EU rules impact you and what you need to do to comply
✓ Compliant forum for industry to **exchange views** and reach consensus
Top reasons to join LightingEurope

→ **Influence** EU legislation (96 %)
→ **Learn** in time about policy impacts on corporate strategies (86 %)
→ **Connect** with policy makers (85 %)

100 % of our members say that LightingEurope has an impact on EU legislation and policies

*Source: LightingEurope Member Survey – March 2019*
Recent achievements

✓ Influenced the **new Ecodesign & energy labelling** requirements for lighting

✓ Introduced **pragmatic removability requirements** for products containing light sources

✓ Supported the **uptake of new technologies, human comfort and wellbeing** in the revised EPBD and SRI (buildings policies)

✓ Successfully advocated for a **revised custom code** for LED products in the WCO’s Harmonised System (HS 2022)

✓ **Excluded luminaires from the EPREL database**

Our campaigns: #BetterLighting

Light impacts more than just our ability to see

It also affects our alertness, cognitive performance, emotions and sleep/wake cycle. This is why we need bright white light that mimics sunlight to be active during the day and darkness to get a good night's sleep.

Our campaigns:
Compliant Lighting Initiative

Supporting compliance and fair competition in the luminaire market
CLI stands for Compliant Lighting Initiative and is a market surveillance program of LightingEurope in partnership with European national lighting associations. The aim of the CLI is to ensure a fair competition among companies in the lighting industry, specifically with regards to the luminaire market.
